GREAT GATSBY & FIRE IN BEULAH

SNAPSHOT STILLWATER

Main Street 1920's

A Note on this Publication:

During the bustling decade of the 1920s, Stillwater saw many changes as it transformed from a country town into a thriving city. The shops on Main Street came and went, and switched locations frequently. In some cases, the owners changed the names of the stores, even while staying in the same location. Due to the varying nature of the businesses, this document is only meant to give the reader a taste of what downtown was like in that bygone era. It is not a complete history of each location.

THE "HAPPY HUNTING GROUND" FOR THE SHOPPER AND THE CENTER OF STILLWATER BUSINESS DISTRICT

This scene gives only a faint idea of the business section of Stillwater. While many of the larger stores have establishments on Main street, there are other important concerns which have located on some of the numerous other financial thoroughfares. Main street has the theaters, banks and many exclusive shops. This picture was taken early in the morning, hence the crowds had not yet begun to be in evidence. By 10 o'clock this street is a scene of bustle and activity which indicates that business is good.

Ford
THE UNIVERSAL CAR

New Prices Ford Cars

Effective Monday, January 16, 1922

Persistent rumors relative to reduction in the prices of Ford cars make advisable slight reduction despite present rock-bottom prices on all types. Therefore, we announce the following prices f. o. b. Detroit, effective Monday, January 16, 1922

Type	New Price	Old Price	Reduction
Chassis	\$285.00	\$295.00	\$10.00
Runabout, regular . . .	319.00	325.00	6.00
Touring, regular	348.00	355.00	7.00
Truck	430.00	445.00	15.00
Coupe	580.00	595.00	15.00
Sedan	645.00	660.00	15.00
Fordson Tractor	625.00	625.00	00.00

To the above prices on open cars, \$70.00 extra will be added for electric starter and lighting equipment, and \$25.00 extra for demountable rim equipment.

These are the lowest prices in the history of the Ford Motor Company

Orders are coming in fast, so place yours promptly to insure early delivery.

The phonograph that amazed Stillwater can be bought

There is a rumor abroad that the instrument which triumphed in the drastic comparison test, made last Monday at the College Auditorium, was a special exhibition model. That rumor is false. The instrument was a regular Official Laboratory Model—out of our own stock.

Every Official Laboratory Model in our stock is guaranteed to sustain the same test.

If you were one of those, in Monday's audience, who wistfully exclaimed: "wonder if it be wonderful if I could buy a phonograph like that"—know that you can. Know that it will perform this miracle every day for you in your own home.

The NEW EDISON

"The Phonograph with a Soul"

Come in and hear for yourself the Official Laboratory Model's marvelous realism. Find out about our Budget Plan, which enables you to own an Official Laboratory Model for a small down payment, the balance on a gentleman's agreement to suit your convenience.

Note—The test at the College Auditorium was made by Collins and Harlan, the world-famous entertainers. They appeared their singing with *His Chatterbox* by the New Edison. There was no difference between the living voices and the *His Chatterbox* voice.

The New Edison stands absolutely alone in this achievement; no other phonograph has ever sustained this test of comparison.

Face-Maker for 1922 - The New CHANDLER SIX The Car That Won an Instant Triumph

NEVER was the supremacy of an automobile so quickly recognized. New York acclaimed it at the show. Other cities are making the verdict nation-wide. It is the magnet of hoofs and saloons, the theme of hundreds of congratulatory telegrams.

The new Chandler glorifies economy. It presents the epitome of automobile construction at new standards of low cost. The motorist of moderate means may now drive a car a millionaire might be proud to own.

All that a car should have—rugged construction, surging power, hailing comfort, art of finest details of trimness and richness of finish are here, because this is a NEW car, not a car slightly revised and adorned, but new in body and chassis, an achievement possible only to a company of simple resources and highly developed manufacturing skill.

The Chandler will be stylish and efficient three years from now, though priced on a basis of 1923. It expresses not only Chandler skill, but is an actual advance for the entire industry.

A Body of Beauty and a Chassis of Might!

Regular Size Cords

Michelin Regular Size Cords by actual test give one-third more mileage than Fabric Tires, yet their first cost is no more. They cost you much less per mile of service.

Because they are the same size as fabric tires Michelin Regular Size Cords can be used opposite fabrics without unbalancing the car.

Michelin Regular Size Cords are the last word in Tire Development.

ONE QUALITY ONLY—THE BEST

30x3½ 5-ply Fabric	\$12.75
30x3½ Cord	12.75
31x4 Cord	15.50
32x4 Cord	22.50
38x4 Cord	23.35
34x4 Cord	24.15
32x4½ Over size Cord	37.70

THE MORE THINGS CHANGE...

CONGESTION OF AUTOMOBILES

"Times change, and men change with them." Ofttimes these changes come with kaledoscopic rapidity.

Less than ten years ago, when automobiles had come to be something more than a curiosity in Stillwater, it was decreed that they should be "parked" in the middle of Main street. That proved a very pleasing and satisfactory arrangement. There were, and are, no street railway tracks here, and the middle-of-the street parking was not only the logical, but feasible plan. Strangers coming to Stillwater liked it; other towns similarly situated adopted it.

But now there are twenty or thirty times as many cars coming to Stillwater or owned in Stillwater as there were ten years ago, and the middle of the street is full to running over of cars. Parking has begun on the sides of the streets, at the curbs, because there is room for no more of them in the middle. At a recent meeting of the chamber of commerce this matter was

brought up and it was the sentiment that the city commissioners be asked to change the ordinance and allow the parking at the curbs. They may as well allow it, for it is evident the people are going to do it anyway.

The incident is a striking reminder of the great growth of the automobile industry. Almost everybody owns a car now. Ten years ago it would have been unbelievable that at this time traffic would be congested on the streets of a small town like Stillwater, measurably as badly as it is congested in the larger cities. But such is the fact. So far as automobile traffic is concerned, there is little difference now in the streets of Stillwater and of Oklahoma City or Tulsa, except that here we are not bothered with street railway tracks, and therefore there is room for more cars. It may keep the city commissioners busy, if this thing keeps up, providing ways and means for the orderly, safe and convenient conduct of motor traffic.
